PRICELESS!

150th ANNIVERSARY SLOT CARD AT TRUMP MARINA

This “Limited Edition” slot card was released over the Labor Day weekend and was to continue until supplies were exhausted. Only one card per person was the limit, but additional cards could be secured on repeat visits to the promotion desk. No information on numbers of cards manufactured were made available. Harvesting orphaned cards has been difficult due to most players with older cards not being aware of the new card.

This LE chip broke the long dry spell of no new chips being issued during most of August and through mid-September.

Limited to 666, this attractive chip release date has not been officially announced yet ... but I'll bet it will be

the day of, or the day before, Halloween.

I hear that a \$25 Lenticular design Halloween chip will make an appearance at Trump Plaza (300).

It's been almost 18 months since their 15th Anniversary chip was issued, but Showboat has finally broken their long silence on issuing Limited Edition chips with this Halloween pair. As the new games manager at the Boat, effective August 1st, fellow chipper, Chris Block, is responsible for getting an LE program started there. Thanks for lending your support to the chip collecting community Chris!

BORGATA HOSTS WORLD POKER TOUR TOURNAMENT

On Wednesday, September 22nd, Borgata invited the public to witness a video taped Texas Hold Em tournament that will be broadcast on the Travel network cable TV show. A numbered chip was distributed to those who wished to watch the live tournament action from the gallery. If your number on the chip was called out, you were permitted to enter the large ballroom where all the table action was taking place under the cable tv cameras and lights. Unfortunately, our numbers were not called, but we wound up with a few neat souvenir chips that will be included in the 2005 Edition of “Black’s Catalog” next year.
